

Recommendations for Play During Covid-19 Re-Opening

We will be staggering courts to limit facility numbers. Courts 1,3 and 4 may be booked for play. The club will be open from 5:45am-9pm for MEMBERS ONLY! We can't have any groups or men's and women's night's right now. The Pro shop is open but by appointment only please call the club to book a time.

Members should not come in if they have any cold or flu like symptoms or fever. If symptoms develop please notify the people you've played with and the STSC front desk.

Please bring your own full water bottle and tennis equipment. We will only be selling balls at this time. If you wish to purchase balls we will charge them to your account. We will not be taking money, credit cards or checks at this time.

Please do not arrive more than 10min before your court time. We ask that you remain outside the facility until its your turn to play. We will have arrows on the floor to indicate which way traffic is to flow please follow those guidelines. Please maintain social distancing when in the club. Tables, chairs, sofas and benches have been stored.

When you arrive at the facility please wash your hands. We would encourage members to wear face masks when they are entering and exiting the facility but it is not required.

We will only be using the main men's and women's bathrooms by the front desk. The showers are not to be used.

We will have members playing on court 3 enter and exit from the outside path. Doors to those areas will be left open. We don't want anyone behind the curtains on the courts.

All doors entering the building will be propped open, doors going on to the courts will also be propped open. This allows better ventilation please do not close them.

Kleenex will not be provided at this time please plan to bring your own. If you need to sneeze or cough please do so into a tissue or your sleeve.

We will only be using one ball machine for now it needs to be reserved for use. The front desk staff will handle set up and pick up.

When playing please follow these guidelines,

Stay 6 feet apart avoid physical contact.

It's a good idea to play with 2 sleeves of balls that are marked by either a different number. You can also mark them yourself so you can identify them.

Playing singles is the safest option but if you want to play doubles just remember to avoid contact and stay 6ft apart.

Avoid touching your face after handling equipment. A hand towel or sweat wrist band is also a great option. Wash your hands promptly if you do touch your face.

Use your racket and foot to pick up the balls hit from opponents.

Stay on your side of the court.

If a ball from another court ends up on your court please kick it back don't pick it up.

If a ball goes behind the curtain please try and push the curtain back using your racket and kicking the ball back out on to the court. This is our handsfree approach.

On completion of your court time please exit the court and the facility to allow us to prepare for the next group.

Wash your hands after you leave the court.

Do not use the locker room or changing area unless you have to. Shower at home.

We can't have any congregation on the courts or in the lobby area.

By taking these safety measures we can get you all back on the courts and keep you safe! This isn't an easy time for any of us but this is our new normal and hopefully as time goes on restrictions will be lifted and we can gradually ease back into socializing and playing.
